## Universe In You

There's a universe in you  
You're so honest and so true  
You're so vibrant and so fresh  
You're the one I love the best  
The best

We didn't meet by accident  
We didn't meet at all  
Showed you into paradise  
Showed me to the wall  
No sense at all  
If you let me down  
Let me down easy now  
If you let me go don't cause me no sorrow  
Believe it or not  
A man wounds easily  
If you love him today  
Love him tomorrow  
Cause you're in everything he sees  
You're in everything he hears  
You're in everything he trusts  
And to lose you is too much  
Universe of trust  
You know that I love you  
Know my love is true  
Know this love is fresh  
From the Eastside to the west

You're the one I love the best  
You're the one I love the best

## Heart of a Child

Now I see you  
Now I don't  
You're not here  
You're over there  
Heart of a child  
Heart of a child  
Heart of a child  
(That's) what you've got  
Never lose Heart  
I forgive you  
If you've wronged me  
I forgive you  
Everything  
I just want you  
To be happy  
Won't you be  
Happy  
For me  
Even if you find  
Somebody else  
Even if you walk out on me  
I am still happy  
If you keep  
Your beautiful heart  
Heart of a child  
Is just so strong  
Heart of a child  
Can do no wrong  
Heart of a child  
Forgives  
Forgets  
Heart of a child  
And no regret  
Got no regrets  
I'm so happy  
For the times we've had  
Don't be blue  
Somebody loves you  
He made the mountains  
He made the trees  
He made you  
And he made me  
And everything  
That you go through  
Just remember, my love  
Don't be blue  
You've got the heart of a child  
Heart of a child  
Heart of a child  
And I love you  
I love you  
Heart of a child  
That's all you need  
Heart of a child  
Heart of a child  
Heart of a child

## Sticks and Stones

It really doesn't matter what's happening to you  
it really doesn't matter  
matter at all  
it's just your reaction to what's happening to you  
that's the only thing that matters at all

sticks and stones  
can break my bones  
sticks and stones  
but it doesn't matter at all

## Civilised Animals

Upmarket hotel  
standing in the hall  
for civilised animals  
going up the wall  
with business conferences  
to settle nothing at all  
but the carpet is thick and soft  
for the vacation crawl

I'd like to stand around in here  
dim the lights  
I'd like to make it clear  
we don't have the right  
to take this land  
god given land  
to take this land  
with an iron hand

upmarket hotel  
plastic home  
for civilised animals  
that hunt on the phone  
me I've been so broke I  
no longer care  
all I know is that its  
cold in there

they take this land  
god given land  
they take this land  
with an iron hand

## Million Or Two

Am I doing alright  
To settle down  
In a small town

I don't want to leave the city  
& make me blue  
thinking of the pity  
of doing it like you  
you know you don't care now  
what it is that I do  
you're a fashion designer  
I see the labelling  
you do  
"I don't want to leave the city"  
you say  
"It would make me blue"  
if I ever left the city  
until I make  
a million or two  
million or two  
in a small town  
next to a big town  
just a small town  
next to a big town  
doing alright  
yes I suppose  
will I point  
at the emperor's new clothes  
I don't want to leave the city  
its good for me  
to run with the rat race  
to break free  
who knows

million yes a million  
million or two  
just a million  
million or so  
just a million  
million should know  
million or two  
just a million  
million or two

## Gravity

Well I had a dream last night  
There was no gravity  
I had a dream last night  
Nothing holding me down  
No gravity  
Holding me  
No gravity  
Holding me  
I went to see my analyst  
To try to figure the facts  
She said you get no free advise  
Life's like that  
With no gravity  
holding me  
gravity  
Holding me  
I had a dream last night  
There was no gravity  
I had a dream last night  
Nothing holding me  
Nothing holding us  
Live your life on trust

No gravity holding you  
No gravity holding us

## Two Degrees Out

MacDonnell Douglas DC 10-30  
ZKNZP  
1979  
Low flying  
Low flying  
and all the crew and  
all the passengers  
kind of lost their lives  
0049  
Greenwich meantime

Two degrees is not far wrong now  
two degrees out and she'll be right  
two degrees out is not far wrong now  
two degrees out and the country's sinking  
so they had an investigation  
orchestrated a "litany of lies"  
and they blamed it on the captain  
with the perfect record, why?  
when we know he didn't change the flight path  
he wasn't told of the deviation  
programmed into the computer  
they didn't pass on the information

two degrees out is not far wrong now  
two degrees out and she'll be right  
two degrees out  
is not far wrong now  
two degrees out  
give or take away  
all their lives

big mountain  
in the flight path  
only high ground  
continent of ice  
if it was just one in a million  
why did they have to cover up with lies  
and on the day that they buried the captain  
that they blamed for the polar crash  
somebody broke into his office  
maybe stole a few vital facts

two degrees out is not far wrong now  
two degrees out and she'll be right  
two degrees out if not far wrong now  
two degrees out  
two degrees out  
there's corruption in high places  
government airlines  
system abuse  
who will guard the guardians  
when they own the legal process too  
two degrees out is not far wrong now  
two degrees out and the country's changed  
two degrees out what a huge disaster  
two degrees out  
who's naming names  
MacDonnell Douglas Dc 10-30  
ZKNZP  
1979  
low flying  
lest we forget  
low flying

JOIN THIS PAGE TO PAGE 1 BY ADHESING THIS STRIP TO UNDERSIDE RIGHT EDGE OF PAGE 1.

They closed down cherry farm  
where did their patients go  
its anybody's guess except the five of whom I know

Quality community care  
Quality community care  
Quality community  
Quality community  
Quality community care

they were given their own house  
they bought themselves a car  
one stayed home with cleaning disease  
four hooned 'round all hours

Quality community care.....

So he cleaned and cleaned and cleaned  
and then he cleaned some more  
he couldn't clean the cigarette burns out of the carpet on the floor

Quality community care

SO he burned the house right down  
He burned it to the floor  
he burned the house right out until the house it was not more

Quality community care

Love is  
Love is not a feeling  
In love we are believing  
Something greater than the world and bigger than yourself  
Love it isn't changing  
Forever rearranging  
Love is set apart  
An ever fixed mark  
Not just a spark  
That's meant to die  
It is a fire  
Build it higher  
The heart it has a reason  
Reason doesn't know  
The heart can come alive in the midst of all your sorrow  
Love can fill you up when you give it all away  
You get it in the first place it isn't there to stay  
o no  
It can move  
And if you wait  
And pray  
You'll get it back someday  
Bigger than your happiness  
And bigger than your sorrow  
Bigger than the past  
Bigger than tomorrow  
Nothing in the world  
can make it fade away  
Its bigger than the night  
bigger than the light of day  
Reap what you sow  
forget forgive  
You've got today  
And yesterday  
Has got nowhere to go  
Nowhere to go

Found it on a rock buried in the ice  
say it holds a record of some kind of life  
even if the experts don't agree  
I tell you this  
this much for free  
there's life out there  
oh yeah  
life out there

I tell you what I'm about to do  
I'm going to find another way to break thru yeah  
I'm going to ride upon the crest of a wave of popularity  
I'm going to make a speech  
about life out there  
life out there  
giddy up

and I can tell you about the 'nam  
and I can tell you 'bout a global plan  
everybody's going to take a little code  
I wouldn't palm it off  
I'd just do what I was told if I were you

found it on a rock.....

The heart has a reason  
Reason doesn't know  
and if you've got a reason  
for telling me that's so  
then I got a reason  
to know that it is true  
the heart has a reason  
the reason it is you  
man is just a reed  
he's very weak indeed  
but he's a thinking reed  
he's a thinking reed  
and his heart has a reason  
that reason doesn't know  
and I got a reason  
for believing that's so

Please don't lean  
ON my machine  
Keep it clean  
And tidy  
It cost me money  
It cost me time  
It cost me all of the best years of my mind  
Please don't lean  
On my machine  
Don't lean

I've got reason  
To believe  
I'll get my money back  
From this metallic thief  
Don't lean  
On my machine  
While I get it back

Took it from the widows  
The orphans need  
Took it from the roses  
Took it from the weed  
In far flung fields  
Where poppies grow  
Red like blood  
Then white like snow  
For my machine  
Don't lean on my machine

Spin the wheel  
Make a deal  
Raise the stakes  
That's all it takes  
Can't miss me  
I'm the tallest one  
I'm in your sky  
O my  
Come and have a wheel on my big wheel  
Come and make a deal  
Spin another wheel  
If you want to stay healthy  
While I get wealthy  
You can watch  
Keep your hands off

Please don't lean  
On my machine  
Keep it clean and tidy

that was a nice house  
that was a nice car

It cost me money  
It cost me time  
It cost me all of the best years of my mind  
Please don't lean  
On my machine  
(He was a family man)  
don't lean  
There's a good chap  
Just stand back

Where's  
your?.....  
Please don't lean on my machine (repeat)
